Shape Bag Design

AUTOMATIC SHAPE BAGS FILLING MACHINE

Automatic Shape Bag Filling Machine

4 Filling Nozzles(Small Pump)

Specification

Model	SPS BJ-500-4D(4 Filling nozzles)
Speed	500-1000 bags/hour
Power	750W
Voltage	220V/50Hz-60Hz
Air Pressure	0.8 Mpa, 0.15 m ³ /min
Packing Volume	500 ml
Accuracy	±1%
Dimesnsion	700 x 600 x 1250 mm
Net Weight	150 Kg.

(Note : Air compressor required)

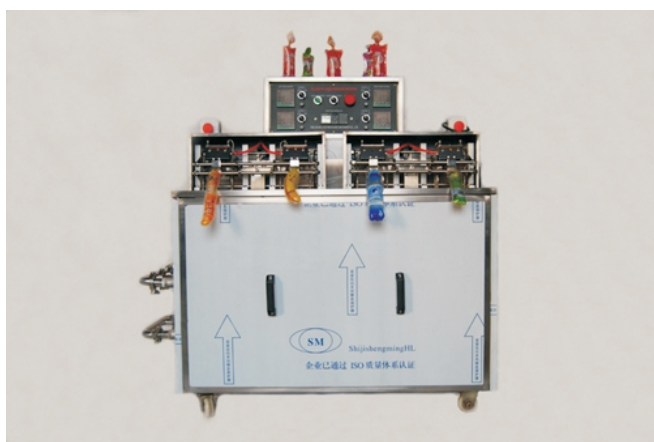

Specifications:

1. Four & Eight filling nozzles,high speed max2800bags/hour
2. It can filling and sealing any shapes bag(including stand up bag with spout , Straw bags).It suitable for various liquids such as water, fruit juice,ice lolly,yogurt,soymilk,Japan Tofu,milk,beverage,liquid soap etc.
- 3.Full set of the sealing system adopts copper material,the heat conduction modulus is very high,so the sealing is very tight and nice.
- 4.The whole machine made by high quality 304 stainless steel.
- 5.The pipe which touch the liquid adopts the food grade standard.
- 6.The heat sealing blade made by special process,replaced the high temperature tape,so it will save more consumable spare parts after many years using.

PLC: Japan Omron

Electric component: Japan Omron

Pneumatic component: Taiwan Airtac

4 Filling Nozzles(Heavy Pump)

Specification

Model	SPS BJ-500-4A (4 Filling nozzles)
Speed	800-1800 bags/hour
Power	750W
Voltage	220V/50Hz-60Hz
Air Pressure	0.8 Mpa, 0.15 m ³ /min
Packing Volume	500 ml
Accuracy	±1%
Dimesnsion	1400x700x1350
Net Weight	180 Kg.

(Note : Air compressor required)

Automatic Shape Bags Filling Machine

8 Filling Nozzles

Specification

Model	SPS BJ-500-8A (8 Filling nozzles)
Speed	1800-2800 bags/hour
Power	1200W
Voltage	220V/50Hz-60Hz
Air Pressure	0.8 Mpa, 0.15 m3/min
Packing Volume	500 ml
Accuracy	±1%
Dimesnsion	1300x600x1250
Net Weight	200 Kg.

(Note : Air compressor required)

Automatic Doypack Filling Capping Machine

Specification

Model	SPS-2000 (2 filling nozzles)
Speed	2000 bags-3000 bags/hour
Power	25 Kw
Voltage	380V
Air Pressure	6 kgf/cm2
Air Consumption	30L/M
Packing Volume	500 ml
Accuracy	±1%
Dimesnsion	2420x1520x1560mm
Net Weight	650 Kgs

(Note : Air compressor required)

2 Filling Nozzles

Specifications:

SPSZGY-2000 automatic doypack filling capping machine used for any liquid packaging such as juice, milk, yogurt, soymilk, vinegar, oil, liquid soap, alcohol etc. Also used for the viscosity liquid packing such as tomato sauce, jelly, Jam can pack with big pump used in machine.

The machine with 2 filling nozzles, Full function, rational construction, rational structure, easy operation and maintenance. It conforms to food hygiene standard.

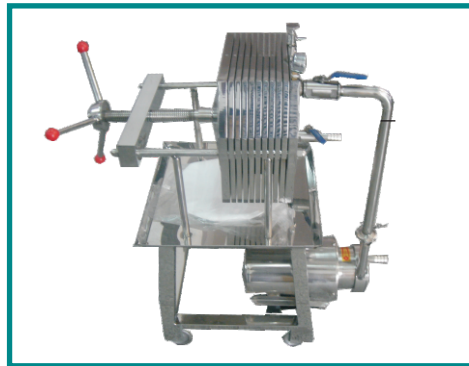

AUTOMATIC SHAPE BAGS FILLING MACHINE

OTHER EQUIPMENT WITH SHAPE BAGS FILLING MACHINE ALSO AVAIL

Sugar Syrup Melting Tank

Stainless Steel Syrup Filter Press

Plate Heat Exchanger

Stainless Steel Mixing tank (single layer)

Ready Juice Tank (Height Should be 5 ft.)

Stainless Steel Transfer Pump

Shape Bags Juice Production Line
