

SOL PACK® PLASTIC PALLETS

Extruded Plastic Pallets

Our Plastic Pallets look and feel like wood. They have all the attributes of wood, but none of the disadvantages. Eco-friendly Plastic Pallets are used in industries that demand a clean hygienic environment such as PHARMACEUTICALS, FOOD STUFFS, SPECIALITY CHEMICALS etc. They offer enhanced material handling, stacking and can be used for virtually any form of packing (bags, sacks, boxes etc.) Can be used with Forklifts, Pallets-trolleys, Stackers etc.

Different designs of Extruded Plastic Pallets are shown below. It can also be made according to your design & specifications.

SOL PACK® PLASTIC PALLETS

UNIQUE MODULAR FABRICATION

- Our Plastic Pallets are fabricated/assembled from Modular construction, which make them easy to maintain and repair hence have longer life.
- More Cost effective in the long run.
- User friendly, since they can easily cut, shaped, turned, planed screwed or nailed.
- Tailor made to custom sizes and load bearing capacities.

ADVANTAGES OF PLASTICS PALLETS V/S WOODEN/METAL

- Environmentally friendly, replace wood, saved trees.
- Excellent resistance to moisture, doesn't rot/corrode.
- Termite/Ant resistance.
- No Surface protector needed.
- Rugged, durable construction, lasts significantly longer.
- Does not splinter, chip or crack, making it safe to use.
- Available in various colours for effective coding.
